Schedule

Note:

The classroom schedule runs in two-hour increments for a total of 15 classes, at five per week. If classes are missed during any given session, the curriculum is repeated monthly, so those missed classes can be “made-up” during the following month’s session. Just look for the number of the missed class on the following month’s schedule, which shows when it’s happening again. Remember, there’s no time limit on completing this program.
